

REMARKS

In the last Office Action, the Examiner required submission of a substitute specification incorporating all of the changes made thereto during prosecution together with a marked-up copy of the original specification showing the changes incorporated in the substitute specification.

In accordance with this response, applicant submits herewith a substitute specification incorporating all of the changes made in the preliminary amendment filed May 27, 2003 and the response filed August 2, 2005 together with a marked-up copy of the original specification showing the changes made.

As required by 37 C.F.R. §1.125(b), applicant's undersigned attorney states that the substitute specification does not introduce new matter into the disclosure.

In view of the foregoing, applicant respectfully requests entry of the substitute specification and an examination of the response filed August 2, 2005 on the merits.

Respectfully submitted,
